

LXM32::is_available

```
graph LR; A[stp::Platform::init_drivers] --> B[LXM32::is_available];
```

A diagram showing a call from the function `stp::Platform::init_drivers` to the function `LXM32::is_available`. The call is represented by a blue arrow pointing from the right box to the left box. The left box is shaded gray, and the right box is white.

stp::Platform::init
_drivers
